Short Walks in Local Area Policy

Rationale:

Lucy Morice Kindergarten believe there are times when learning can be enhanced by providing short supervised walks and access in the local community, and in accordance with DECD Policy and ACECQA (NQS), and EYLF Outcome 'Children Are Connected With & Contribute To Their World - Demonstrate a sense of belonging and comfort in their environment.'

Parents will:

- Sign a consent form at the time of enrolment giving permission for their child to participate in spontaneous short walks in the local area

The kindergarten will:

- Ensure a risk management plan has been made for such short walks and is left on display
- Use the DECD Excursion Day Checklist to ensure basic checks are consistently completed by staff and volunteers for the safety of children
- Plan short walks in the local area in accordance with the Camps and excursions – Guidelines for schools and preschools
- Have full details displayed on verandah on morning of walk

Small Groups may participate spontaneously in a short walk offsite under the care of the certified supervision, where it is likely that learning could be greatly enhanced by doing so. Mandated child / adult ratio will be adhered to.

Policy Created: March 2018

Review Date: March 2021
